# How do we help the QHSE department?

With Qooling, you can simply involve the entire organization to help your QHSE move forward..

### In Control
Compliance processes are covered in the platform and triggers are set when the expiration of important actions are coming up. This will allow for better preparation for audits.

### Communication
Every employee can find everything they need to know. When they can't find what they need, it prevents them from doing their job and introduces lots of communication errors.

### Structure
A good online QHSE platform will bring structure to the management system. Providing a structured platform will remove a lot of frustration for the employees.

# What could we do for your organization?

With Qooling, you will bring your organization to the next level.

### Data-Driven Decision Making
Improve the organization based on actual data. The lower barrier to engage with the management system will increase the amount of data gathered.

### Transparency
Employees can see what the company is doing, how it is doing and how it improves. This creates higher engagement and allows people to help the company move forward.
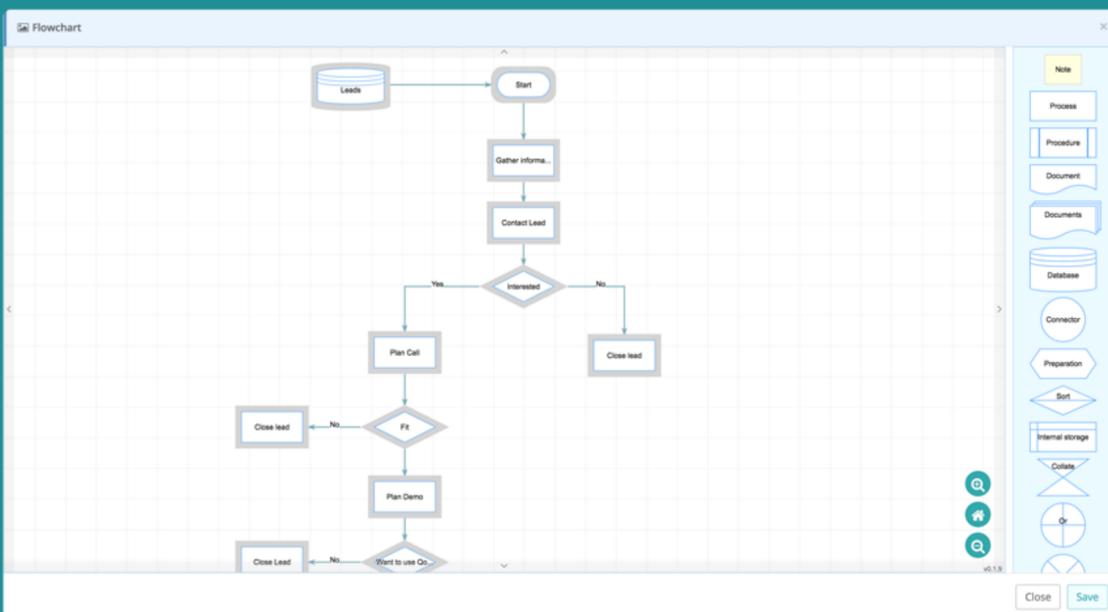

# Issue Management

No longer miss out on any issues. With Qooling, each member of your team can easily create a nonconformity report by taking a picture with their phone.

- ✓ Involve your team
- ✓ Improve where it matters
- ✓ Easily manage and solve issues

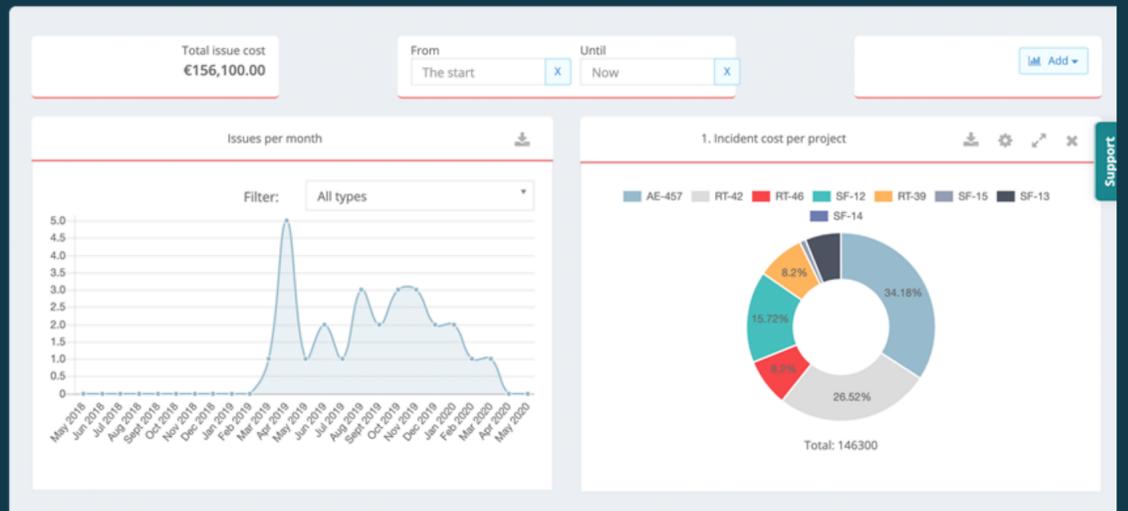

# Document Management

Stop the risk of having outdated procedures or work-instructions. The Qooling platform completely takes care of version control for you, making sure everyone always has the right version. Qooling procedures come with a number of cool features.

- ✓ Built-in flowcharts creator
- ✓ Authorization management
- ✓ Department level access management
- ✓ Automated document control

# Audits

Audits are a great mechanism to check if your company is functioning as intended and whether improvements can be made. With Qooling, audits are done more efficiently and effectively.

✓ Set access rights
✓ Create an audit plan
✓ Easy NCR management
✓ Traceability

# CAPA Management

Easily manage all corrective and preventive actions within the organization. The easy-to-use filters allow you to find the most important actions the company is working on.

✓ Manage due dates
✓ Easily analyze actions
✓ Custom filters

# Equipment Management

Never miss out on a tool that needs to be calibrated or inspected. Easily plan due dates and track maintenance of the tools.

✓ Notifications when inspection is needed
✓ Complete inspection/maintenance history
✓ Assign tools to users

# Flexible Forms

Create your own internal checklists and forms with a simple drag and drop of the fields you need. The automated version control guarantees the use of only the latest version by employees.

✓ Set access rights
✓ All forms are version controlled
✓ Create your own, no consultant required

# Employee Management

The employee management module gives you a better overview of the employees within the Qooling platform.

✓ Clear overview of all the employees including their role, job description, attended training/toolboxes, personal number
✓ Search through employee records
✓ Filter the overview on records
✓ Creating crosstables of employees and records

# Surveys

Satisfied customers and employees are the lifeline of every company. Create open surveys to actually measure company performance.

✓ Drag and drop survey creation
✓ Graphical dashboards
✓ Automated e-mail distributions
✓ Conditional fields

# Online Training

Qooling is the easiest way to continuously train the team. Create your own online training and distribute it within the company.

Ideal for:

✓ Digital Toolbox meetings
✓ (Food) Safety training
✓ Site safety instructions
✓ New employee instructions

# Data-Driven Descision

Transform data into actionable insights. Making data-driven decisions by analyzing data related to incidents or non-compliance. Processing and interpreting this data to identify patterns, understand the frequency and severity of incidents, and facilitate proactive measures to address underlying issues

✓ Data Aggregation Centralization
✓ QHSE Performance Analysis
✓ Safety Responsibility Dashboard
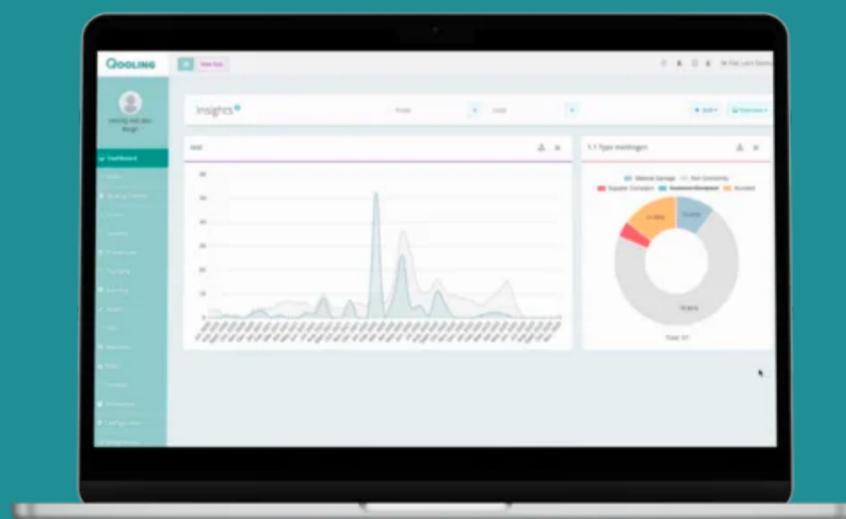

# Inform the workforce

The Qooling App enhances team communication by enabling targeted group messaging, real-time notifications for instant updates, and quick distribution of important information through a user-friendly interface.

✓ Group Messaging
✓ Real-Time Notifications
✓ Immediate Information Distribution
✓ User-Friendly Interface
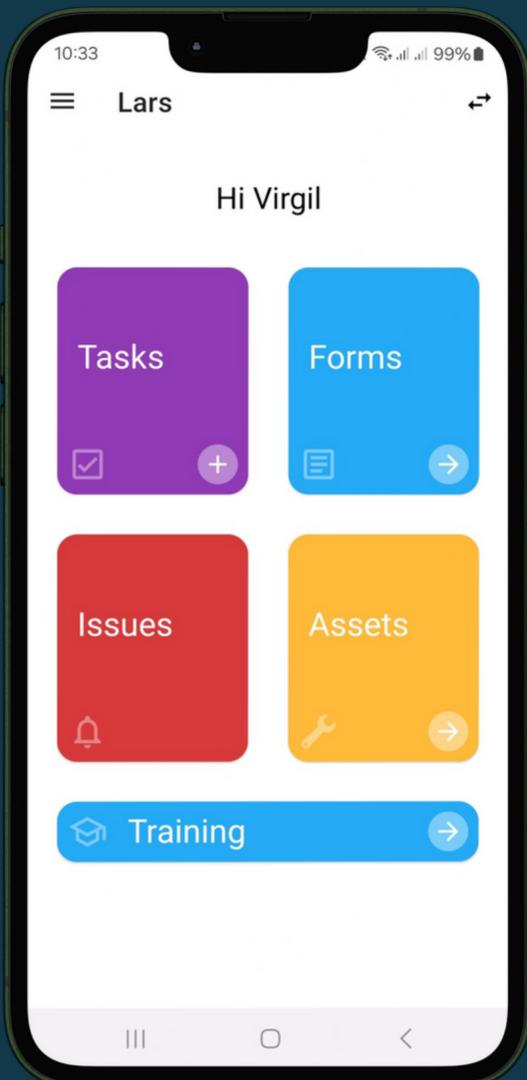

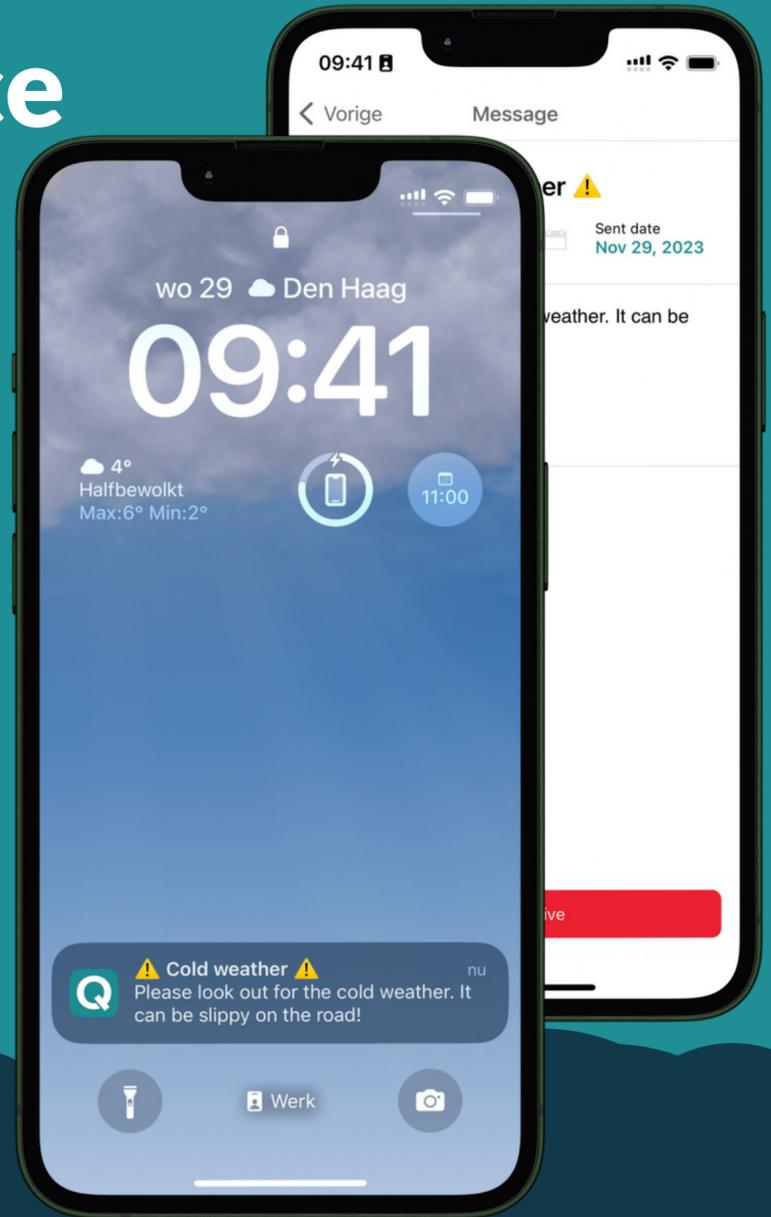

# Connected anywhere you go

Qooling allows you to access all your data from anywhere in the world. Download the app and manage all your tasks straight from your mobile.

# Our story

At Qooling, we believe that Quality, Safety and Security is everybody's responsibility and therefore should be rooted in the DNA of any organization. This approach allows a company to truly leverage the power of Quality, Safety and Security Management. We support the transformation of organizations into a fully integrated Quality, Safety and Security culture. We do this all to help companies to move towards operational excellence.

This goal can only be achieved if all employees have an active role in the management system, hence user-friendliness is key. Qooling ensures that every employee can easily contribute to the culture.

You can only move forward together.

# What we stand for

Transparency, innovation, convenience and knowledge. These core values ensure a healthy culture within Qooling, which we radiate outwards for our success.

**Transparency**
As a transparent organization, we keep all our stakeholders informed. We like to show what happens at Qooling and how the platform improves.

**Innovation**
We continuously develop the platform. The latest available technologies are embedded within the platform to provide our customers with the best tools.

**Convenience**
Ease-of-use is paramount, from the purchase of the product to the implementation and use of Qooling. We are always here to help. Convenience is not limited to the platform.

**Knowledge**
We believe we have an obligation to share our knowledge and experience. All our knowledge and experiences are incorporated in our platform.

# Ready to improve the QHSE within your organization?

Bring your QHSE management to the next level by engaging the entire company. Everybody should have a part in it, not just the QHSE department. Start using the tools that are being used by leading companies within their industry.

- ✓ All-in-one platform (CAPA, NCR, audits, issues)
- ✓ Guaranteed structure to your management system
- ✓ Stay effortlessly compliant to industry standards
- ✓ Collaborate with colleagues and external experts

# Discover if Qooling fits your organization

Let one of our Qooling experts guide you through our platform to see if it could be beneficial for your organization.

- ✓ Free online demo (no strings attached)
- ✓ Guided tour through the possibilities of the platform
- ✓ No credit card required
